## DESIGN & INNOVATION

Make a BIG impression with  
**LARGEPRINTING.com**  
wide format and  
3D Printing Solutions.

We offer a wide range of large format printing and cutting solutions from 4" kiss cut stickers and posters to 10' banners, custom packaging and complex store displays.

Our 33,000 square foot facility is centrally located in Kansas City and is perfectly positioned for affordable and fast delivery across the country:

**CEO quote:** "One of the keys to our success is working directly with our clients' marketing departments and designers during the design process. Depending on the needs of any project, we conduct site surveys of the installation spaces to ensure fit and function for the final design. In many cases, we're able to provide design advice that helps our clients deliver exceptional displays for their customers."

**Indoor & Outdoor Signs** are a great way to gain attention and awareness. Add some excitement and interest to any wall.

**Package Design & Prototyping** Let us help you conceptualize, design and produce custom packaging that is both functional and appealing.

**Retail Displays** Point-of-purchase displays draw the customers' attention to products. They can be as simple as a "shelf talker" or as elaborate as a full size standalone product display.

**Banners** Displayed horizontally, vertically, indoors or out. Versatile and cost-effective. Custom full-color banners provide high visibility that attracts and motivates customers.

**Trade Show Graphics** A memorable presence is a must. Trust us and our proven ability to produce trade show displays that help companies and products stand out and get noticed.

**Stickers** Printed on the highest quality vinyl stock, our stickers are fully customizable. We can cut any size or shape you can dream of and offer various laminate finishes to ensure the best quality that will last indoors and out.

**Vehicle Graphics** Market your business and provide credibility with your customers using vehicle graphics. Surprisingly affordable, options include anything from car magnets to decals and even full wraps.

# MAKE AN IMPACT

## WITH 3D PRINTING!

### Large Scale 3D Printing

Our 3D solutions offer the next evolution of tools at your service. 3D printing is fast and inexpensive thanks to low volume capability. It is the next evolution of tools we now provide for you to help manufacture prototypes, production parts, or to produce a creative idea on demand.

### Laser Cutting & Engraving

With the most advanced laser cutting and engraving tech in the industry, our large-scale laser can handle your next project. Cut-to-spec signage, architectural, promotional products, and tradeshow designs with our laser, etching, or engraving services. Use materials like metal, plastics, wood, leather, glass, and acrylic.

### Vacuum Form

We now provide fabrication of plastic parts with our large-scale vacuum forming services. This is an amazing way to make rigid or flexible parts that are ideal for plastic packaging designs, signage displays, or prototypes. We've got your next product or project all wrapped up!

### Let Us Help You Shape Your World!

We're standing by to help take your signage, promotional designs, and technical models to the next level. Call us at 816-221-2434.
